

Dear Kevin,

I would like say that the success of the UPS Facility Alterations and Expansion Project was due in large part to the performance of Kevin Clark Electrical Services. This project was a definite challenge with the phasing , existing conditions uncovered during demolition, changes to the scope of work implemented by the owner and the need to coordinate with another electrical contractor on site. The effort put forth by your company was instrumental.

Thank you again for the outstanding performance and willingness to go the extra distance to make this project successful.

Sincerely,
Chris J. Hebert
